

ReadSpeaker for Schoology

K12 literacy support and learning toolsets

ReadSpeaker for Schoology Browser Extension and ReadSpeaker Premium Integration: two great options to audio enable learning content

ReadSpeaker assistive technology helps students improve comprehension, motivation, and stay at peer levels. Our seamless solutions bring audio to the entire learning landscape and allow schools to quickly and easily integrate audio across all platforms and content. Instantly create audio versions of courses, textbooks, assessments, research, study materials, personal documents, and more, allowing learners to listen while following along with highlighted text.

ReadSpeaker for Schoology Extension

The ReadSpeaker for Schoology Extension speech enables written online content and provides an OCR capability to convert typed text on images to speech. Convert text-to-audio in Google Docs, Microsoft Word online pages, PDF documents, and emails in Gmail and Outlook. There is simply no easier way to add audio to your Schoology content!

ReadSpeaker for Schoology Premium

The ReadSpeaker for Schoology Premium Integration (LTI) combines the ease of the use of the ReadSpeaker for Schoology Extension with an enhanced web-based study tool that converts text from any coursework or curriculum (including exams, quizzes, assessments) into clear, easy-to-follow audio.

The ReadSpeaker Difference

Helping struggling readers stay motivated and at grade level is difficult. Audio tools are a proven aid in helping educators face this challenge.

ReadSpeaker integrates text to speech into a comprehensive reading, writing, and study toolsets to help those with learning differences become confident, autonomous learners. Whether used at the institutional or individual level, our solutions are the most effective, flexible, and easiest to use by administrators, teachers, and students alike.

An award-winning solution with proven benefits

Any coursework and content type

- Schoology content
- Exams, quizzes and assessments
- Reading assignments
- Writing tasks
- Personal documents
- Scanned notes
- Math, science and STEM work

“We knew this tool worked; we knew that it was reliable, and we knew that it was a single tool that could meet the needs of a variety of learners. Knowing that we could use ReadSpeaker to read aloud text to students, because many of them are developing readers... we felt like that was going to be an important piece in what we could offer... it is a single tool that can meet the needs of a variety of learners... It has become an ingrained part of my school.”
